RE: Official Letter of Invitation

Dear Yanlin Zhao,

We officially invite you to attend the 7th International Symposium on Mine Safety Science and Engineering (ISMSSE), to be held in Pittsburgh, United States on 17-21 August 2024.

We confirm with this letter that your attendance at this symposium, as those whose work in the field of mine health and safety have been determined to satisfy our educational and research standards, is crucial to the success of this symposium. The exchange of knowledge, research, and collaboration our symposium provides is not possible without your full participation and contributions for the conference proceedings.

We highly encourage you to check more details on the symposium program - along with a listing of all sessions, including [technical sessions](#), [short courses](#), [technical tours](#), and [trade shows](#). Please check the website and social media accounts periodically for updates at <https://sites.psu.edu/ismsse/>.

Please note, ISMSSE has no influence over the issuance of a visa. The decision of whether to grant a visa is at the sole discretion of consular officials who review the application. ISMSSE cannot change the decision of any governmental agency that denies a visa application.

This letter is for invitation purposes only and does not imply any financial commitment from ISMSSE. All expenses related to attending symposium, including airfare, transportation, lodging, meals, insurance and show entry fees are your responsibility as an event attendee.

Sincerely,

Shimin Liu

Shimin Liu, PhD
Symposium Chairman
Professor of Energy and Mineral Engineering, Professor of Mining Engineering
